## DESIGN

Based on the “shooting brake” concept (modified coupé fitted with an estate-like rear), the MINI Clubman combines sleek contours, all-round muscle and a revolutionary door concept reminiscent of the Austin Mini Countryman and the Mini Clubman Estate. But it’s not just about aesthetics: expanding upon the original design-to-space concept, the MINI Clubman upholds the reputation of MINI as the one-off small car that creates space on the inside and saves space on the outside.

## SAFETY

Six airbags, Anti-lock Braking System (ABS with CBC, EBD and Brake Assist), standard-feature Dynamic Stability Control (DSC), super-sturdy bodywork and disc brakes all round: safety is definitely writ large with the MINI Cooper S Clubman.

## ENGINE

Spirited, sporty and straining at the leash – the engine of the MINI Cooper S Clubman ensures a bristling drive from the word go. With its twin-scroll turbocharger and an Overboost function which ups the torque to 260 Nm, it manages 0-100 km/h in about the same time as you take to read this sentence.

Fuel consumption combined (ltr/100 km) 5.9 [6.4]

CO<sub>2</sub> emission (g/km) 137 [150]

## DRIVING EXPERIENCE

As with all MINI models, the wheels of the MINI Clubman are pushed out to each corner of the car, giving it a low centre of gravity and superb go-kart style handling. This is enhanced by the multilink rear suspension – a rare feature in a small car. It makes sure that the rear wheels are always in full contact with the road, no matter how bumpy. Gripping stuff!
